

fine homes by **NATIONAL HOMES**

- Concise, accurate blueprints and a Construction Manual designed to aid the do-it-yourselfer are part of our customer service program.
- Should your future home choice not be found in this catalogue, a home can be custom-designed to fulfill your family's needs.
- Panel dimensions, window and door sizes and locations are transferred from blueprint to magnetic tape. The chance of human error is virtually eliminated with National's electronic tape.
- The Robo computer operator oversees the manufacturing process as wall sections are automatically nailed and cut to desired length by precision-plus equipment.
- Truss chords and web members are clamped in position. Truss plates are pressed into the wood at structural joints by nine ton truss press.
- Tarped weatherproof trucks haul future National homes throughout the west. Sealed drum boxes provide further protection for interior components.
- Following the arrival of the house package, a National home is built "off the truck". Exterior first, then interior numbered panels are mounted on corresponding numbered plates and nailed into place.
- Fiberglass insulation, vapour barrier and staples are all included in a National building package.
- A wide choice of kitchen cabinets, vanities, medicine cabinets, prefinished interior doors, matching window casing and baseboards are included in our package. With the many options and choices, no matter which plan you choose, your new National home will have an individual character all its own.

OCKERT'S HOME CLEANERS

SPECIALIZING IN CARPET & UPHOLSTERY CLEANING WALL TO WALL & SHAGS

There Is Only ONE Way To Clean Your Carpets

THE "Professional" WAY

WHY? Because:
 a) We believe that you MUST 'WASH' first
 (and our special shampoos are gentle,
 have germicides and color brighteners)

AND:
 b) You MUST then rinse it clean
 (our second step does just that)
