Two friendly telephone  
habits . . . quick to answer  
when your telephone  
rings; SLOW to hang up  
when you call someone  
who does not immediately  
respond. When calling  
others, remember that the  
called person may be al-  
most there . . . so wait a  
few seconds longer.

Telephone calls used to be a scream but today, a normal voice will do. The difference is improved transmission - better ways to get your voice from here to there. Simply talk in a normal tone of voice into the receiver and your words will go a long way.
