Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.

Have the right number when you call. It's natural to trust to memory but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number won't you look it up in the telephone directory?

When you say it in the Yellow Pages, the Action-People hear it.

Over 83 million Action-People look in the Yellow Pages every year . . . an average of 44 times per person. And 93 per cent of the time, they do something about it . . . visit, call or write. Your ad should be there.
