When you call someone, give
them time to reach the tele-
phone. You know how you
feel when you just miss a call,
so wait a few seconds longer
when you ring. You never
know, they may just be reach-
ing for the phone when you
hang up.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once.
Promptness often prevents loss of a
customer.

You can build closer relations with
customers.

You can use tact in delicate situa-
tions. And because men talk more
freely than they write, you can fre-
quently trace the real reason for the
complaint and prevent similar com-
plaints in the future.

SCRATCHED WOODWORK

One way to repair deeply scratched woodwork is by filling the scratches with a mixture of fine sawdust and spar varnish. After this filling has hardened completely, smooth it down with fine sandpaper.

**PLEASE
DIAL
CAREFULLY**

Careless dialing puts other people to needless bother—and delays your call. Please make sure of the right number, listen for the dial tone, then dial carefully.

4 GOOD REASONS FOR
 HANDLING COMPLAINTS
 BY LONG DISTANCE
 You can talk over matters at once.
 Promptness often prevents loss of a
 customer.
 You can build closer relations with
 customers.
 You can use tact in delicate situa-
 tions. And because men talk more
 freely than they write, you can fre-
 quently trace the real reason for the
 complaint and prevent similar com-
 plaints in the future.

It's easier to understand
and jot down numbers too,
if they are spoken in
sequence with pauses
between groups of numerals.
For instance, in reading
aloud the telephone
number of our business
office, we would say, "Two
two four (pause) six two,
six one."
