Telephone calls used to be a scream but today, a normal voice will do. The difference is improved transmission—better way to get your voice from here to there. Simply talk in a normal tone of voice into the receiver and your words will go a long way.

**4 GOOD REASONS FOR
HANDLING COMPLAINTS
BY LONG DISTANCE**

You can talk over matters at once. Promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

Two friendly telephone habits... quick to answer when your telephone rings; slow to hang up when you call someone who does not immediately respond. When calling others, remember that the called person may be almost there... so wait a few seconds longer.

Have the right number when you call. It's natural to trust to memory but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number won't you look it up in the telephone directory?

Telephone service is a friendly
service. The people who op-
erate and maintain it take a
genuine satisfaction in serving
you pleasantly and well. People
who use the telephone a great
deal find that friendliness is an
instinctive habit. The telephone
helps folks to know each other
better.

**REPAIR
