4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE
 You can talk over matters at once. Promptness often prevents loss of a customer.
 You can build closer relations with customers.
 You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

We offer a Comprehensive Hygiene Program with Five licensed and Registered University trained hygienists. Almost all adults have some degree of periodontitis and/or gingivitis (gum and bone disease). This disease is the most common cause of tooth loss. University-graduated hygienists are especially trained in non-surgical soft tissue management. We screen all adult patients for gum disease and offer computer generated topographical mapping (i.e. probing of gum and bone levels) to aid in precise and thorough scaling. Recent research has shown that effective scaling and maintenance programs reduce tooth loss and may eliminate the need for future gum surgery. For your introduction to a Soft Tissue Management Program, call our office for an appointment.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once. Promptness often prevents loss of a customer.
You can build closer relations with customers.
You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once.
Promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once. Promptness often prevents loss of a customer. You can build closer relations with customers. You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.
