 Isn't there someone someplace wanting to hear your voice?

Have the right number when you call. It's natural to trust to memory but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number won't you look it up in the telephone directory?

Remember, to the caller there
is no such thing as an unimportant
telephone call. Otherwise,
he wouldn't have taken the time
and trouble to call you in the
first place.

When in doubt about a telephone
number, please look in the
telephone directory first.

That helps you, helps others, and
helps telephone people to do a
better job for you.
