SCRATCHED WOODWORK

One way to repair deeply scratched woodwork is by filling the scratches with a mixture of fine sawdust and spar varnish. After this filling has hardened completely, smooth it down with fine sandpaper.

Two friendly telephone
habits . . . quick to answer
when your telephone
rings; slow to hang up
when you call someone
who does not immediately
respond. When calling
others, remember that the
called person may be
almost there . . . so wait a
few seconds longer.

Remember, to the caller there
is no such thing as an unimpor-
tant telephone call. Otherwise,
he wouldn't have taken the time
and trouble to call you in the
first place.

and jot down numbers too,

number of our business
office, we would say, "Two
two four (pause) six two,
six one."
