"I Just Can't Believe Funerals Cost So Much!"

When you're faced with the death of someone close,
we don't want the cost of final arrangements to add
to your distress.

That's why you need to think twice before assuming
the "traditional" way is the only way. You do have
"alternatives" and you should certainly make
informed choices.

What you really need at this time is plain talk that
demystifies the process, spells out options in
a factual way, reduces the costs, and gives
you real control over the decisions to be
made.

When you're in control, you make better
decisions. And we also know a funeral
home is the last place you want to
visit. It can leave you feeling
uncomfortable and vulnerable.
That's why Personal Alternative®
always comes to your home to
make the arrangements.
While the home visit
provides an obvious
convenience to

your family, it further ensures you avoid the
commercial pressure to spend beyond your needs.

Personal Alternative® Funeral Services is a well
established and fully licensed funeral provider.
And, we operate our own crematorium.

Although we're much more affordable than the
"traditional" funeral home, less costly doesn't
mean less considerate. It just means we've
found a more realistic way to provide service.
We offer real choice, and every choice is
substantially more affordable - everything
from simple cremation without a service to
a complete funeral and burial.

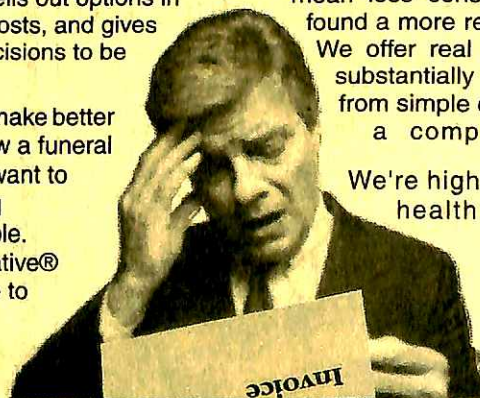

We're highly recommended by clergy,
health care providers, social
workers and other

So, before you make any
decisions, call us. We'll provide
costs and options over the
phone.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once. Promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.
