# HUSQVARNA

## THE JAM PROOF SEWING MACHINE

### Instant stitch changes

With the Husqvarna Automatic, you can switch instantly from decorative patterns to plain zigzag or straight stitching. Five basic patterns on each Magi-Stat cam unit give an endless variety of decorative stitches, and no matter which of the three cam sets is inserted, plain zigzag is always instantly available, for overcasting, buttonholing, sewing stretchable seams, etc. When you switch to straight stitching, the zigzag mechanism is completely disengaged, enabling you to run the finest straight seams imaginable on your "51".

### A shuttle that never jams

Think what this means . . . With a Husqvarna 51 you never have to fuss at clearing the shuttle because a thread has jammed in it. This shuttle doesn't have to be oiled either—another reason why the "51" or "21" is so easy to look after. Since it always releases the same amount of thread for each stitch too, no matter how fast you sew, the stitching is always beautifully even.
