QUICK, FOR CLOTHES CARE

Colors of clothing can be altered from foodstuffs, cosmetics and perspiration that have been permitted to stay in garments. These color changes often show in acetate fabrics where blue or green turn white, or dark blue or black turn red. These color changes can be corrected if the professional drycleaner gets them soon after the soil. Otherwise, the color change may be permanent.

NICER HANDS

An edging of polish under fingernails helps prevent chipping. And wearing rubber gloves for dishwashing and other hands-in-water chores saves repair work on the manicure.
