MARBLE STAINS

Most stains on marble are removed
 best with the application of a poultice.
 To make a poultice, soak a piece of
 white blotting paper, white napkin,
 white cleansing tissue, or commercial
 whiting in one of the following solu-
 tions: for organic stains, use ammonia
 or hydrogen peroxide in hair bleach
 strength; for oily stains, an amyl
 acetate or acetone solvent.

IN YOUR OWN WORDS

The Classifications in the **YELLOW PAGES** are chosen from a study of the terms buyers use to describe what they want. That's why it's so easy

It's easy to hold "family get-togethers" by telephone—several members of your family in different cities can take part in the same telephone conversation. Just call the Long Distance Operator and say, "I want to make a Conference Call."
