**DIAL
 CAREFULLY**

In these busy days when saving time is so important, more and more telephone users are following the thoughtful way of answering the telephone: "Harry Smith speaking." Such an introduction establishes identity, saves time and makes a good impression.

It's easier to understand and jot down numbers too, if they are spoken in sequence with pauses between groups of numerals. For instance, in reading aloud the telephone number of our business office, we would say, "Two four (pause) six two, six one."

SCRATCHED WOODWORK

One way to repair deeply scratched wood-

Would you like to build sales ... attract new customers ... encourage old customers to come back again? Advertise in the Yellow Pages ... it pays! They will tell your sales story to people who are ready to buy.

"TAN YOUR HIDE?"

Tanners use the term "hide" when referring to a whole pelt from one of the larger animals—cattle, horse and so on. They use the term "skin" when referring to the pelt from a young or small animal—sheep, calf, pig.

GOING TO MOVE?

Don't forget the house you're leaving behind.

Here are some helpful hints.

1. See that all utilities have been disconnected or shut off (gas, electric, telephone, etc.)
2. Notify the milkman, paper boy or others who have been delivering to you regularly.
3. Notify the Post Office of your change of address.
4. Notify your insurance companies and secure records of transfer from school, church, bank, etc.
5. When you're in your new location have your change of address noted on your driver's license and automobile registration certificate.

Wise buyers say there's nothing like the Yellow Pages of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things.
