SCRATCHED WOODWORK

One way to repair deeply scratched woodwork is by filling the scratches with a mixture of fine sawdust and spar varnish. After this filling has hardened completely, smooth it down with fine sandpaper.

A Short-cut to Your Customers

To reach more prospects, make more telephone and walk-in sales, be sure to advertise under all classifications where buyers look for your products and services.

9 out of 10

people look in the "Yellow Pages" when they're ready to buy.

Let the Yellow Pages bring more business to you.

It's easier to understand
and jot down numbers too,
if they are spoken in
sequence with pauses
between groups of numer-
als. For instance, in read-
ing aloud the telephone
number of our business of-
fice, we would say, Two
two four (pause) six two,
six one."

Service for Architects, Engineers and Builders: that's where to call if you're building a house and you want to arrange for special telephone outlets. This service is also available to builders of large apartment, office and industrial complexes.

WAIT
FOR THE

Dial Tone

IT'S
YOUR
SIGNAL
TO PROCEED

If occasionally your telephone sounds "dead," it may be that the equipment at our central office is busy. So wait a little while — and you will hear the hum-m-m — which indicates the switching equipment is ready to handle your call.
