Don't Take Chances  
 Jay-walking is the most common  
 cause of pedestrian mishaps. More  
 pedestrian deaths and injuries occur  
 when people are crossing or entering  
 a street between intersections.

Have the right number when you call. It's natural to trust to memory but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number won't you look it up in the telephone directory?

Keep watching the dial . . .  
and you'll dial accurately.  
Remember to pull the  
finger all the way to the  
stop . . . let the dial return  
at its own speed. Speeding  
up or slowing down the  
dial's return may interfere  
with perfect operation of  
the equipment for you.

why make **2**  
calls instead of **1**?

That's what you may be  
doing when you fail to  
look in your directory  
first for the telephone  
number you want—  
before you call  
"Information."

**4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE**  
 You can talk over matters at once. Promptness often prevents loss of a customer.  
 You can build closer relations with customers.  
 You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.
