4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once. Promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because people talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

Think it over,
 the decision
 becomes clear...

Feel better about funeral arrangements in 3 minutes ~ or less.

When you're faced with the responsibility of making funeral arrangements, the last thing you need is even more pressure. So before you decide on a funeral service provider, arm yourself with the information you need to make an informed choice: call Personal Alternative® Funeral Services.

Three minutes is all we need to demonstrate the major difference between ourselves and the expensive, traditional funeral homes to which you may be accustomed. We'll explain, in plain language, how we can provide the exact level of service you desire at a cost substantially lower than you'd expect.

We'll visit you in the comfort of your home to help you achieve the arrangements that suit you, and explain the affordable options.

Invest a few minutes to discover how Personal Alternative® can help you make funeral arrangements with much less financial and emotional stress.

LOOK IN THE "YELLOW PAGES™"

We ♥ To Clean, And It Shows.™

One low Price. One High Standard. No Extra Charges For The Best methods

1. Our trained technicians connect a state of the art industrial power vacuum truck capable of moving thousands of cubic feet of air per minute to your duct and furnace system. We want to emphasize that we do not use low power portable units or cheap duct cleaning "Kits" attached to carpet cleaning equipment.

2. We then perform a thorough inspection of your ventilation system and loosen any caked on material that we find. We then clean each duct deep into the system forcing dust and debris to the vacuum truck. This is the most important cleaning step! (Some systems just put a short Vac hose in the duct.)

3. Using another special tool called a "Reverse Skipper" we then clean remaining dust and debris from your heating system back to the vacuum connection and out to our truck.

4. Finally, we clean, inspect and re-install the furnace fan and other internal furnace components and properly seal the access points that we use to perform a proper cleaning. We only use safety plugs and metal inspection covers, not just duct tape or dangerous sheet metal scraps.

5. During every service we also perform a comprehensive multi-point system check and lube service at no charge.

6. ALBERTA FURNACE CLEANING doesn't charge any more than companies that use smaller, cheaper cleaning units.
