Don't forget to plan for  
concealed telephone conduit  
and convenient locations  
for telephone outlets  
when you build your new  
home. These built-in tele-  
phone facilities add real  
value to a home yet their  
cost is very small if they  
are installed during  
construction.

IMAGINE - There's a cause for everyone. Look for ways you can volunteer your time.

**Feel better about funeral arrangements in 3 minutes ~ or less.**

When you're faced with the responsibility of making funeral arrangements, the last thing you need is even more pressure. So before you decide on a funeral service provider, arm yourself with the information you need to make an informed choice: call Personal Alternative® Funeral Services.

Three minutes is all we need to demonstrate the major difference between ourselves and the expensive, traditional funeral homes to which you may be accustomed. We'll explain, in plain language, how we can provide the exact level of service you desire at a cost substantially lower than you'd expect.

We'll visit you in the comfort of your home to help you achieve the arrangements that suit you, and explain the affordable options.

Invest a few minutes to discover how Personal Alternative® can help you make funeral arrangements with much less financial and emotional stress.

*"Allow us just 3 minutes over the phone, and we'll show you that we can make funeral arrangements affordable without any loss of service."*

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.
