CARPET HINT

Grease and soot stains on a carpet may be removed by sprinkling with salt and rubbing vigorously. Several applications may be necessary. Old stains may be lightened considerably by rubbing with a salt and water paste. To restore freshness, wipe with a cloth or sponge which has been dipped in a strong salt solution and wrung out to remove excess moisture.

SILVER CLEANER

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash the silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.

SILVER CLEANER

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash the silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.
