SILVER CLEANER

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash the silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.

SUN BATHING TIPS

- Initial exposure to the sun should be 30 minutes at the most.
- Never rely on tanning lotions for complete protection.
- White reflects light to a greater degree than colors.
- When using a beach umbrella, place it over a dark towel to prevent reflection.

SILVER CLEANING

To clean your silver. Mix one-half
cup of salt and three-fourths cup
of soapflakes with sufficient cold
water to cover the silverware laid
in an aluminum pan. Bring to a
boil, then wash silver in hot soapy
water. CAUTION: Do not use on
filigreed silver. Solution may re-
move the oxidation in the intricate
designs and it will take some time
for them to darken again.

SILVER CLEANING

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.
