SILVER CLEANING

To clean your silver. Mix one-half
 cup of salt and three-fourths cup
 of soapflakes with sufficient cold
 water to cover the silverware laid
 in an aluminum pan. Bring to a
 boil, then wash silver in hot soapy
 water. CAUTION: Do not use on
 filigreed silver. Solution may re-
 move the oxidation in the intricate
 designs and it will take some time
 for them to darken again.

CARPET HINT

Grease and soot stains on a carpet may be removed by sprinkling with salt and rubbing vigorously. Several applications may be necessary. Old stains may be lightened considerably by rubbing with a salt and water paste. To restore freshness, wipe with a cloth or sponge which has been dipped in a strong salt solution and wrung out to remove excess moisture.
