### READ WHAT ONE USER SAYS REGARDING THE AEROLECTRIC

Claresholm, Alta., June 29-27.

Electrical Engineers, Ltd.,  
Calgary, Alta.

Dear Sirs:—

I have your letter inquiring re the satisfaction of the Aerolectric Plant.

After using the plant for six months, and to say that it is giving satisfaction is hardly saying enough in favor of it.

When I purchased the plant, I was a little in doubt about the aeroplane propeller, and such a generator being able to keep my batteries fully charged at all times, for I have lights in my house, barn, garage, pump-house and blacksmith shop, and I used electricity for ironing, washing, and churning. During the shortest days last winter I always had all the electricity I wanted for light and power. It was certainly an agreeable surprise to find that I even had more than I needed.

Since installing the plant, I have been out no expense, except one pint of oil every three months, and the plant has required no attention other than oiling, which is more than can be said for a gas engine plant, because I have tried them and I know.

The AEROLECTRIC comes as near giving me something for nothing as anything I ever had.

My plant positively would not be for sale at any price, if I could not get another one for immediate use.

Very truly yours,

(Sgd.) JOHN SMEDSTEAD.

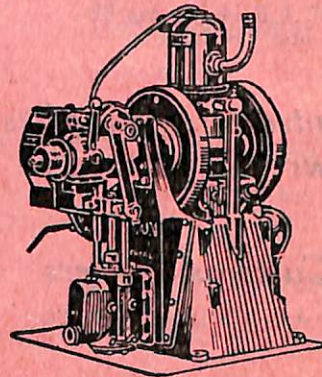

NOTE:—Mr. Smedstead had previously used an engine driven plant of well known make, so that his opinion is doubly valuable.
