# HOW TO USE THE

# YELLOW PAGES

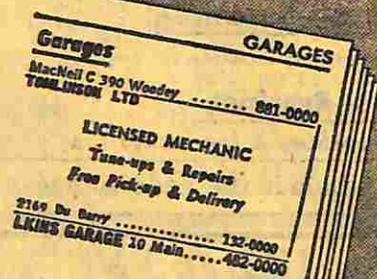

**F**OR YOUR CONVENIENCE a complete list of all business and professional telephone subscribers, throughout the community, appear in alphabetical order under the classification appropriate to their business, or the article or service they sell. The classifications, too, are in alphabetical order. You can quickly and easily find the Business, Service or Product you need.

## WHEN YOU WANT TO BUY SOMETHING . . . OR GO SOMEWHERE

Suppose you are looking for a restaurant — just do this:

First find "RESTAURANTS" on the "R" pages. Then pick out the one whose message appeals to you most, or specializes in the kind of food you want, or whose location is convenient to you. Use the Yellow Pages in exactly the same way, whether you want a **MOVER, CARPET & RUG CLEANER, PLUMBING CONTRACTOR** or any one of hundreds of other products or services.

## WHEN YOU HAVE FORGOTTEN A BUSINESS FIRM'S NAME BUT REMEMBER THE ADDRESS . . .

You may forget a business establishment's name but remember its location.

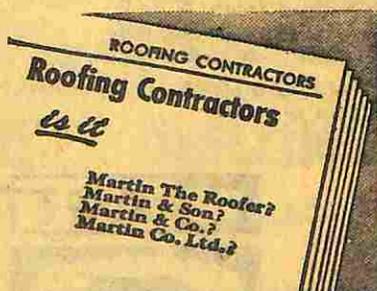

For example — you want a garage located on Dubarry Street. Simply turn to the "GARAGES" classification. Here you will find all the garages, and then all you have to do is look for the address which you know.

## WHEN YOU WANT TO FIND A TRADE NAME PRODUCT OR SERVICE . . .

Suppose you want a dealer for a nationally known product. For example, let us assume you were looking for "Ful-Tone" Paint:

First turn to "PAINT" on the "P" pages. Then select your dealer from the list of "Ful-Tone" dealers. It is just as easy as using a dictionary.

## EVEN WHEN YOU KNOW THE NAME . . .

The Yellow Pages will frequently help you.

Suppose you want to telephone Martin, the roofer. All the roofers are listed in the Yellow Pages at the classification of "ROOFING CONTRACTORS" on the "R" pages, and it is easier to find your Martin among the few listed under "ROOFING CONTRACTORS" than in the long list of Martins in the White Pages.

# DIAL TONE

Sometimes, these busy days, all  
equipment is in use at once.  
When that happens, you'll avoid  
wrong numbers or incomplete calls  
if you wait just a moment till  
you hear that familiar  
"hum-m-m-m" that tells you the  
line is ready.

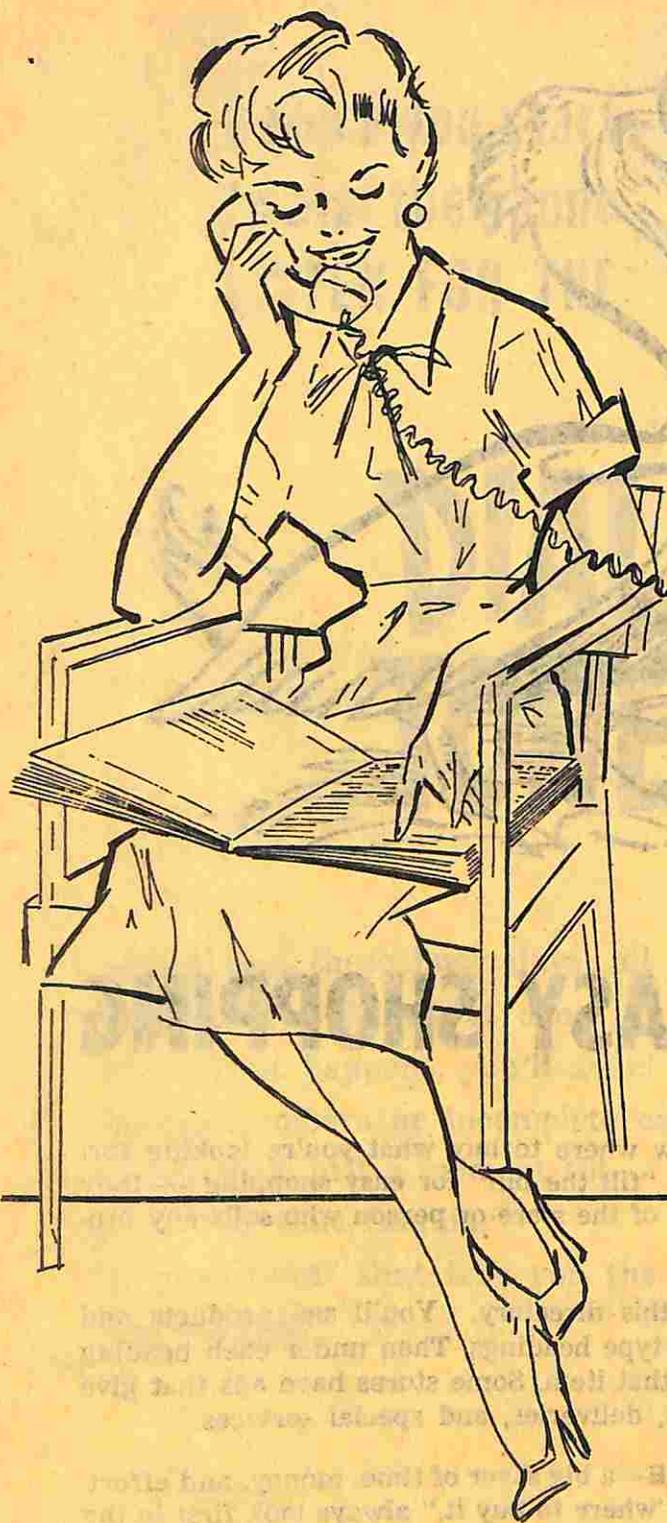

## FILLS THE BILL FOR EASY SHOPPING

**WHEN IS SHOPPING EASY?** When you know where to buy what you're looking for. The Yellow Pages of your telephone directory "fill the bill" for easy shopping — they give the name, address, and telephone number of the store or person who sells any product or service available in your town.

**TURN THROUGH THE YELLOW PAGES** of this directory. You'll see products and services listed in alphabetical order under bold-type headings. Then under each heading you'll find the firms that sell, rent, or repair that item. Some stores have ads that give information on brands they carry, store hours, deliveries, and special services.

**YES, THE YELLOW PAGES ARE EASY TO USE**—a big saver of time, money, and effort. Make the most of them. When in doubt about "where to buy it," always look first in the Yellow Pages.

## Get the right number first

Get it from the directory. If there's any doubt about it, look up the number before you call. It's mighty easy to get numbers twisted if you depend on memory alone. And since looking up numbers in the directory is so easy, it's a good way to save time in making your calls.

## The last word

in phones in 1915 took some shouting  
to carry your voice coast to coast,  
and the call cost over \$20.

Today you can almost hear a whisper,  
and the cost is only a whisper, too.

## Here's what the AGT Building Industry Consulting Service does for developers, architects, engineers and contractors.

We pre-plan communication facilities needs with you now to save costly problems later. Such as expensive alterations or added-on wiring eyesores caused by *communication congestion*.

The service costs you nothing. But from a success standpoint it can mean communication flexibility - both now and years down the road.

For one thing, it can increase the building's value. "Communications Ready" buildings are increasingly important to prospective tenants or buyers because they are designed to cope with growing communications demands.

As a team of specialized engineers, draftsmen and specifications writers, we're tuned-in to the complex communications needs of modern buildings. Commercial, industrial, and institutional.

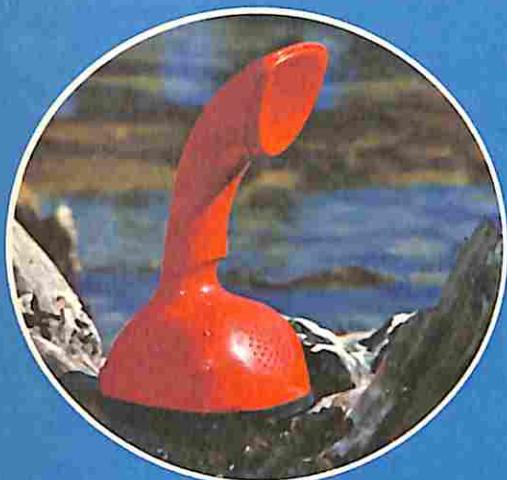

We're ready to work with you as soon as you're ready for us - ideally, before the blueprints are final. And we'll stay on the job right through the final inspection.
