CANADA AND THE UNITED STATES ARE DIVIDED INTO MORE THAN 100 TELEPHONE AREAS, EACH IDENTIFIED BY A THREE-FIGURE AREA CODE.

DIALING INSTRUCTIONS

MAKING THE MOST OF TELEPHONE SERVICE

Today's telephone equipment is engineered to give you a marvellously high standard of service — but a little help on your part can make your telephone service work even better for you.

CORRECT DIALING SAVES TIME AND FRUSTRATION

How you dial is important. It can ensure that your call goes through quickly and easily, and save you the annoyance of re-dialing.

- Before dialing, make sure you have the correct number in front of you. Look it up — and jot it down.
- Lift the receiver and listen for the dial tone. When you hear it, dial ALL SEVEN DIGITS of the local number you wish to reach.
- Please don't delay between dialing each digit. But do make sure you turn the dial all the way around to the finger stop.
- Let the dial roll back of its own accord before you dial the next digit.

RURAL CUSTOMERS

HOW TO USE AUTOMATIC PARTY LINE TELEPHONES

- 1 TO CALL EXCHANGE NUMBERS AND OTHER PARTY LINE NUMBERS**
 - (a) Lift the receiver. If the line is free, push in the Call Button or press the Hook Switch Latch (depending on the type of telephone set).
 - (b) Listen for dial tone, then dial the number as listed in the directory.
- 2 TO CALL A NUMBER ON YOUR OWN LINE**
 - (a) Lift the receiver. If the line is free, push in the Call Button or press the Hook Switch Latch.
 - (b) Listen for the dial tone, then dial the number as listed in the directory.
 - (c) When you hear the busy signal, depress the hook switch until the Call Button or Hook Switch Latch releases and listen.
 - (d) When your party answers, push in the Call Button or press the Hook Switch Latch and proceed with your conversation.
- 3 IF THE CALLED PARTY DOES NOT ANSWER**
 - (a) Push in the Call Button or press the Hook Switch Latch to stop the ringing and replace the receiver.
- 4 TO ANSWER A CALL ON YOUR OWN TELEPHONE**
 - (a) When you hear your own party line ring signal, pick up your telephone receiver, press Hook Switch Latch or Call Button and proceed with conversation.

Telephone security

ANNOYANCE TELEPHONE CALLS

Here's what to do about obscene or harassing phone calls:

- 1 **DON'T TALK.** Don't keep talking to the caller. What they really want is an audience. Don't be that audience.
- 2 **HANG UP.** Hang up if the caller doesn't say anything. Hang up at the first obscene word. If they do not identify themselves to your satisfaction, hang up. Do it quietly, don't display your emotions or alarm.
- 3 **CALL US.** If these obscene or harassing calls persist, call our nearest Business Office - you'll find the listing on page 1 of your directory under "Frequently Called A.G.T. Numbers". After normal business hours please dial '0' (Zero) and report the matter to the Operator.

The Criminal Code provides up to six months in prison and \$500.00 in fines for making an obscene or harassing calls. We also retain the right to disconnect or remove the phone service of anyone making such calls. We want you to know that we're doing all we can to help you and your family.

IDENTIFICATION OF AGT EMPLOYEES

For your protection, every AGT employee carries a photo identification card. The plastic laminated card bear the company name plus the employee's photograph, description and signature. If in doubt, ask to see this I.D. Card. Any genuine AGT employee will show it to you without hesitation.

THE 'BEEP' TONE

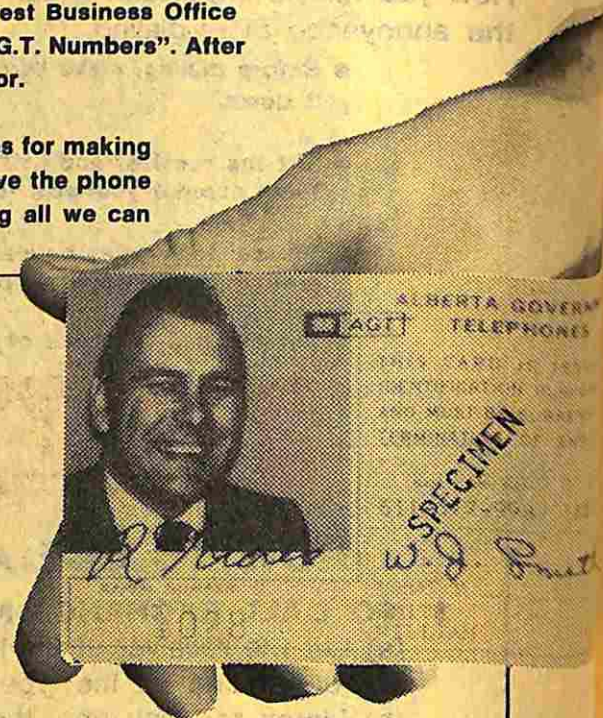

If you hear a short beep tone about every 15 seconds it indicates that the person to whom you are talking is recording your conversation with an electrical recording machine connected to the line. The beep signal is produced automatically by a device which connects the recorder to the telephone line and is provided by AGT for your protection. If you do not want your conversation to be recorded ask the person to whom you are talking to disconnect his recording machine. When this is done the signal is no longer heard. Use of a recorder without the beep signal is not permitted.

CREDIT CARD SECURITY

Protect your long distance credit card. If it is lost or stolen, report this immediately to your AGT Business Office. We'll cancel the card and issue a new one promptly.

THE WRONG WAY TO 'FOIL BURGLARS'

Leaving the phone off the hook may alert burglars that you're not home! A continual busy signal is a give-away. Lights and radios left on are better ways to discourage break-ins.

GENERAL INFORMATION SERVICE TIPS

- **Building Industry Consulting Service . . . phone 232-1511 (Collect)**

Architects, Contractors, Developers, Engineers . . . telecommunication is as important to tenants as power and plumbing. Build communications needs into the total project design by involving BICS at the preplanning stage. Consultation costs nothing and eliminates the risk of costly, space-consuming additions or alterations later.

- **Buried Cable Location Service . . . Dial "0" (Zero) and ask for Zenith 07128 (no toll charge)**

Before you operate heavy digging equipment — or dig in your own backyard — call AGT to locate underground cable in the vicinity. Call well in advance (at least 48 hours).

- **Business Communications . . .**
 - MEDICINE HAT CUSTOMERS.....Call 529-3311
 - DISTRICT CUSTOMERS.....(No Toll Charge) 1 + 529-3311

Don't wait for a communications problem to develop. Call for a consultation. We'll put our knowledge, training and the resources of AGT and the TransCanada Telephone System to work for your company.

- **Cable Pedestals**

Located in rural areas and along highways on private property and in alleys. They're dark green and marked with AGT identification. If one is damaged, disrupted communications can result. Should you accidentally damage one, please call our Repair Service or dial '0' and ask for Zenith 07128. Thank you.

- **Country Telephone Service**

Buried cable service lines make it important to start planning early for your Rural telephone service installation. AGT needs plenty of advance notice so that your phone service will be ready when you are. To apply for rural telephone service, call your AGT Business Office.

- **Vacation Disconnect**

We'll disconnect your phone service for the time you're away. No unauthorized calls can be made and charged from your telephone. Anyone dialing your number will be automatically connected to a recorded announcement.

Let your AGT Business Office know **when** and for **how long**. Telephone service disconnected for a month or more is billed only half your monthly rental rate.

POSTAL INFORMATION

Postal Standards

Mechanized mail processing is the answer to your need for a reliable and economical postal service.

'Non-standard' mail is rejected from the mechanized system and has to be sorted manually. This means extra

processing and leads to the possibility of service delays. 'Standard' mail, on the other hand, enjoys the most modern and efficient processing possible. Postal Standards are in everybody's best interests.

Consult your suppliers about Postal Standards

When ordering stationery and forms,

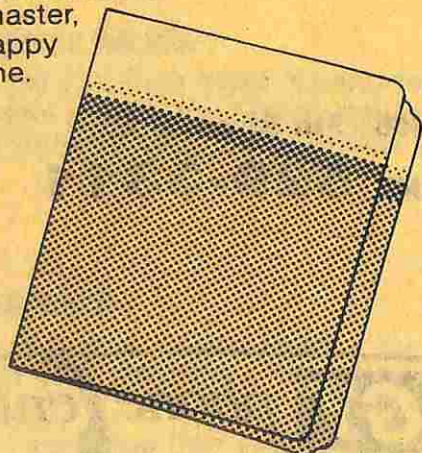

when specifying printing,

when doing business with graphic designers,

tell your supplier that the product you buy must meet Postal Standards.

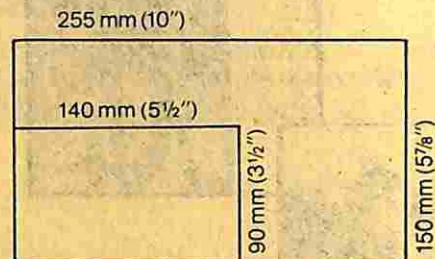

This information was extracted from the more detailed Canada Post Standards Manual. For your copy, contact your local Post Office Marketing Representative or your Postmaster, who will be happy to give you one.

Postal Standards

1. Size

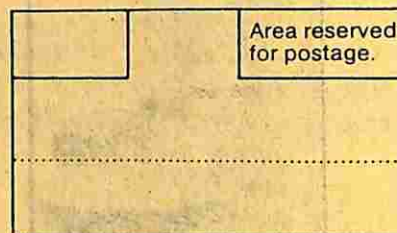

All envelopes must be rectangular in shape. Dimensions must fall within the minimums and maximums shown below.

2. Graphics

Envelope graphics must be clear of certain areas that are required for machine processing.

Recommended location for Return Address, including Postal Code.

Area reserved for postage.

A 45 mm (1 3/4 inches) space along the bottom of the envelope must be clear of all graphics.

3. Windows

Windows must be fully covered with transparent material that allows easy reading of the address underneath.

Windows should be just large enough to accommodate the longest address, without allowing other information to slip into the window area.

J. Smith
100 Esplanade
WINNIPEG, Manitoba
R5B 7C4

Enclosures should fit the envelope snugly to ensure that the address does not slip out of the window area.

Use aluminum foil to divide an oblong
 baking dish. Place small amounts of
 leftovers in each section to warm. Not
 only does it have everything warm at
