Keep watching the dial . . .  
 and you'll dial accurately.  
 Remember to pull the  
 finger all the way to the  
 stop . . . let the dial return  
 at its own speed. Speeding  
 up or slowing down the  
 dial's return may interfere  
 with perfect operation of  
 the equipment for you.

**4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE**

You can talk over matters at once  
promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations.

And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

It's easier to understand  
and jot down numbers too,  
if they are spoken in  
sequence with pauses  
between groups of numerals.  
For instance, in reading  
aloud the telephone  
number of our business office,  
we would say, Two two  
four (pause) six two,  
six one."

**4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE**

You can talk over matters at once promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations.

And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

**BETTER SERVICE FOR EVERYONE**

YOU can save yourself and others annoyance and get calls through faster, if you follow these three simple steps when you place a call —
