1. We connect an industrial power vacuum truck capable of moving thousands of cubic feet of air per minute through your furnace and duct system.
2. We then perform a thorough point-by-point cleaning of the entire furnace system using compressed air and a special reverse air line tool, forcing the debris back to the truck.
3. Finally, the furnace fan and system components are cleaned, inspected and re-installed.
4. During every service, we also perform a comprehensive multi-point system check and lubrication service.

Advertising Information
 Advertising with TELUS Advertising Services is an efficient and effective way of reaching your customer. Your TELUS Directory is in virtually every home, store, hotel, & office, making it available 24 hours a day, 365 days a year. Most importantly, your potential customer uses the TELUS Directory - 9 out of 10 adults consult the book at least 40 times annually. Studies also show that over 96% of references to the TELUS Directory followed up with a phone call, visit or letter.
