**WE ALSO DO FIREPLACES AND CHIMNEYS**

1. We connect an industrial power vacuum truck capable of moving thousands of cubic feet of air per minute through your furnace and duct system.
2. We then perform a thorough point-by-point cleaning of the entire furnace system using compressed air and a special reverse air line tool, forcing the debris back to the truck.
3. Finally, the furnace fan and system components are cleaned, inspected and re-installed.
4. During every service, we also perform a comprehensive multi-point system check and lubrication service.
