## IMPAIRED DRIVING?

If you can't afford to lose your driver's licence, call us. *We can help, guaranteed.*

Although a criminal record may have serious long term consequences, the biggest concern for many persons charged with impaired driving is the *automatic minimum 1 year license suspension* if convicted. If you need to drive to work and support your family, the loss of your licence is a heavy price to pay for an error in judgement.

That's where we come in. Impaired driving is one of the most technically complicated areas of criminal law and we know it inside and out. We have *successfully defended thousands of persons* charged with impaired driving over the last 20 years. We currently defend over 300 *impaired driving cases each year* and *we win* almost all of the time. Other lawyers call us for advice on their cases and many of our clients are referred to us by lawyers or other people in the criminal justice system.

Our fees are expensive, but you get what you pay for. We are so confident we can help you that we offer a *money back guarantee - if you are not happy with the result we will give you back your money.* No questions asked. That way, you know we will do our very best for you, because nobody likes to work for free.

Check out our website at [www.roadlawyers.ca](http://www.roadlawyers.ca) or call us for a free consultation: *We can help, guaranteed.*
