The Canadian Legion of The B.E.S.L.

The Canadian Legion is a major unit of the British Empire Service League, a world-wide organization of ex-service personnel.

Material wealth cannot purchase an Active membership. The purchase price is service in the armed forces or auxiliary services during any war of the Empire.

The Legion is a big organization—Big, not only in its membership but it is big in the work it does and its outlook and influence on national affairs. The Legion is recognized and accepted by the Dominion and Provincial Governments of Canada as the guardian of the interests of approximately 1,500,000 ex-service men and women.

With the advice and co-operation of Legion-trained personnel, the Dominion of Canada has enacted legislation which is accepted by a grateful country as Canada's Veterans Charter, part of which deals with:

- 1 Medical and Hospital Treatment
- 2 The Pension Act (Canadian)
- 3 The Veterans Bureau
- 4 War Service Grants Act
- 5 Veterans Business and Professional Loans Act
- 6 Veterans Land Act
- 7 Veterans Rehabilitation Act
- 8 Veterans Insurance Act
- 9 War Veterans Allowance Act
- 10 Veterans Preference in the Civil Service
- 11 Employment and Welfare
- 12 National Housing

Every Canadian Veteran owes the Legion a debt of gratitude for the unceasing work done by experienced Legion officials in consultation with government ministries. Every veteran or dependent who has asked for the help of the Legion has said a big "thank you." Assistance is granted in every possible manner.

Your local branch has been instrumental in obtaining for some veterans, priority in low-rental housing and security of tenure as well as co-operating in the allotment of small holdings for those fortunate enough to qualify for such accommodation.

Do you know of any reason why veterans should not be proud of the record of the Legion? Every ex-service man and woman should maintain regular membership in your local branch.—If you are not a member now, ask yourself, WHY?

VIGILANCE is our constant aim . . .

. . . CO-OPERATION is your privilege.

CITY OF RED DEER

Population, estimated, 15,000

Situated midway between Calgary and Edmonton, Red Deer is the distributing point for Central Alberta—east to the Saskatchewan border and west to the Rockies. Many thriving farming and mining communities are supplied with distributing, shopping, medical and educational services by this thriving, modern city.

It serves an ideal mixed farming and dairying district which has had few if any crop failures. The Central Alberta Dairy Pool condensery, located here, is one of the largest of its kind between Ontario and British Columbia. This industry has done much to encourage dairy farming in this district, and trucks bring in milk from a radius of about 50 miles. This is processed into the famous "Alpha" brand evaporated milk and other milk products.

In addition to its fame as a mixed farming and dairying district, Mr. S. J. Allsopp brought further honor to the Red Deer district by winning World Wheat Championship at the Chicago Exhibition in 1947 and 1948.

In the West, most communities owe their existence to the services they perform for the surrounding territory, and Red Deer is eminently successful in this regard. It is the shopping centre of Central Alberta. A splendid T. Eaton Co. store was constructed here in 1939, and other department stores, drug stores, implement and storage warehouses, and garages, offer their customers the best of service. As a medical centre, Red Deer is outstanding. A 104-bed hospital, 14 doctors, 6 dentists and drug stores, offer excellent service to the people of this part of the province.

A modern shopping centre is being constructed adjacent to the C.N.R. on Gaetz Avenue, one block east of the City Hall. Safeway Stores have erected a modern store and parking area.

The Kiwanis Club has built the Twilight Homes for pioneer citizens on the 3300 block on 49th avenue, immediately south of the new South Hill school. A Twilight Lodge, for single pioneer citizens, a community project, is being built.

In education too, Red Deer has met its obligation to the community. The fall of 1947 saw the establishment of a large Composite High School, supported by the surrounding school divisions and the City of Red Deer. Here are over 700 pupils receiving instruction from 30 teachers, in not only academic subjects, but also music, commercial work, shop and technical subjects, and an important list of agricultural work. A distinctive feature of the school is the dormitory, where outside students may secure room and board at a very reasonable rate.

Red Deer has much to offer new enterprises. There is ample water and trackage available. Transportation facilities, both truck and rail, radiate from the city. There is also an abundant supply of electrical power and natural gas. Manufacturers and distributors would be well advised to investigate the strategic location of Red Deer as a distributing centre.

Some of the new industries and central warehouses built during the last two years are a new \$500,000 brewery; a diamond drill plant by J. K. Smit-Connors Ltd., and a transformer manufacturing plant by the Pioneer Electric Co. of Winnipeg. A large central warehouse for the Fry-Cadbury Co. of Montreal, and a Half-Million dollar parts depot for the Chrysler Corp. of Canada were opened in 1954.

Civil Defence

In recent months civil defense has taken on new emphasis as a result of disclosures concerning the potential destructive powers of thermonuclear weapons. Canada and other free nations have been faced with the urgent necessity of taking a fresh look at the nature and scale of their civil defense preparations. Civil defense is essentially a civilian activity quite separate and distinct from the national preparations that would be necessary to defend the country in the event of war. It should be regarded as one of the inescapable duties of citizenship.

Satisfactory progress has been made in this district owing to the increased interest shown by women's groups in the city and rural areas.

Twenty-six representatives of these groups have attended courses of various kinds at Civil Defense Training Schools at Arnprior, Ontario, and at Edmonton, and are now active in planning to meet any emergency, whether enemy attack or natural disaster.

HOW WELL A COMMUNITY SURVIVES DISASTER WILL DEPEND ENTIRELY ON HOW WELL EACH MEMBER OF THE COMMUNITY IS PREPARED TO MEET IT.

J. M. McAfee, Mayor

Sir Arthur A. Stonhouse, Director, Red Deer & District

Red Deer Service Clubs

There are several Women's Service Clubs, a successful Recreation Commission, and all the more popular Lodges and Societies are represented in Red Deer. There are three Reserve Army units, three cadet units, Scouts, Cubs, Guides and Brownies. Red Deer has 21 churches, one library, three theatres (cinema), Memorial Centre and Auditorium, Fair "B" Circuit, 18-hole golf course, new curling rink and modern hockey arena with artificial ice, and a swimming pool.

The Legion gratefully acknowledges the assistance of the many firms who, by their advertising, made this directory possible. They are all reliable firms.— Please remember them.
