# IN YELLOW PAGE ADVERTISEMENTS

## THESE SYMBOLS DENOTE ACCESS FOR DISABLED PEOPLE

Advertisers are now being encouraged to designate whether or not their premises and facilities are accessible to disabled persons. In this regard, two levels of accessibility are used which are based on the following criteria:

This symbol designates that the premises and facilities of the advertiser meets the building requirements for persons with disabilities as set out in Building Design Guide Book. A copy of this book may be obtained by writing:

**Building Standards Branch Alberta Labor  
Rm. 705, 10808 - 99 Ave., Edmonton T5K 0G5**

This symbol designates that the direct access to the premises and the business' facilities meets the basic requirements of wheelchair users. These are: a space of parking, a reasonably smooth approach to a main entrance or elevator, leading to the business' facilities without stairs: the entrance door being of minimum width of 815 mm. (2'8"). and a 2'8" bypass if a turnstile is present. This symbol also designates that some of the facilities within the premises may not be accessible, therefore, disabled persons should contact the advertiser to make enquiries regarding their special needs.

### Responsibility:

AGT is not responsible for assessing or qualifying whether a facility meets the necessary criteria. The onus is on the Yellow Page advertisers to ensure that their premises meet the requirements as indicated by the symbol in their advertisement.
