# FOLLOW THE ROAD TO LOWER FOOD BILLS

There IS something you can do about cutting the family food bill . . . you can do like millions of other American families and save money as well as eat better with a frozen food locker.

If you live on a farm, you can store your own meat, vegetables, fruits, and poultry until needed. If you live in town you can purchase meat at wholesale, have it processed and placed in your locker. You can buy fruits, vegetables, and other frozen foods at low quantity prices.

With a frozen food locker you can be thrifty without lowering your diet standards. Drop in our plant tomorrow and learn more about this modern way of preserving food. You'll find us friendly and ready to be of service to you.
